Reception The new season frequently enters the list of great fantasy novels. In 2011, a NPR survey of 60,000 readers from between 5.000 fantasy novels named, found the Series as the new fantasy fiction in Goodreads, with some of the novels that received thousands of comments. [31] The influence of the Political Philosophy of Goodkind in his writing was observed by reviewers and commentators [32] [33] and led to divisive reactions on his novels, with some criticizing their objectivist themes and others praising them. [35] Goodkind itself was open on this influence and was described as an invarian invirator [36] who liked to move controversy. [34] He was criticized for writing female characters who adhere to sexist stereotypes and frequently submitted them to sexial violence, although I affirmed his stories were centered on "strong female characters" and once objected a book cover, he considered sexist.
